

ONTARIO 2017 APRIL BUDGET NEW HOSPITAL PROJECTS

The Province is committing to several new priority major hospital projects that will address growing demand for health care services and facility condition deficiencies, and support new and innovative models of care. Continued investment in health infrastructure will ensure that the health system remains sustainable into the future.

TABLE 4.1 Newly Approved Major Hospital Projects

Southwest	Niagara Health System — New South Niagara Hospital Capital Project	The project will include construction of a new hospital in support of service transformation in the Niagara Region.
Southwest	Windsor Regional Health Centre — New Greenfield Hospital Project	The project will include construction of a new hospital in support of service transformation in the Windsor Region.
Central	Hamilton Health Sciences — Hamilton Redevelopment Project	The project will address Hamilton Health Sciences' high-growth needs and update aging infrastructure to meet current hospital standards.
Central	Trillium Health Partners — Broader Redevelopment Project	The project includes investment in the Mississauga Hospital and Queensway Health Centre to add new spaces to address capacity issues, as well as renovate existing space.
North	Weeneebayko Area Health Authority — Replacement Hospital Project	Ontario is committing to the provincial share of the project costs for a new hospital to serve the health care needs of the population along the James Bay coast. Ontario will work with the federal government to advance planning for this project.

The Province has demonstrated its commitment to securing the future of Ontario's health care system by providing several hospitals with planning grants since 2013. Through detailed upfront planning work, the Province is taking a responsible approach to addressing the emerging needs of the health care system. Planning grants ensure that proposals meet the needs of local communities across Ontario.
